| Handling | | |
|--|-----|--|
| Precautions for safe handling | : | Avoid exposure - obtain special instructions before use. Exhaust ventilation at the object is necessary. |
| Advice on protection against fire and explosion | : | Keep away from sources of ignition - No smoking. The heavy vapours can overcome a considerable distance up to the source of ignition. Take measures to prevent the build up of electrostatic charge. Normal measures for preventive fire protection. |
| Storage | | |
| Conditions for safe storage, including any incompatibilities | : | Keep only in the original container, tightly closed, in a well ventilated place. Store at room temperature. (Ambient temperature: > 0 < 35°C) Protect from atmospheric moisture and water. |
| Advice on common storage | : | Do not store together with: Oxidizing agents |
| TION 8. EXPOSURE CONTI | ROL | S/PERSONAL PROTECTION |
| Protective measures | : | Ensure that eyewash stations and safety showers are close to the workstation location. Legal requirements are to be considered in regard of the selection, use and care of personal protective equipment. Do not breathe vapours/dust. |
| Engineering measures | : | Use with local exhaust ventilation. |
| Eye protection | : | Safety goggles |
| Hand protection | : | Impervious butyl rubber gloves Gloves must be inspected prior to use. Replace when worn. |
