

**SCA-13C,15N2 HCl,  
reference material****R1650-10MG**

Version 1.0

Issuing date 03/20/2019

Revision Date 05/21/2019

Print Date 08/07/2019

**1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING****Product information**

Trade name : SCA-13C,15N2 HCl,  
reference material

Number : 000000003490

Recommended use of the chemical and restrictions on use : Laboratory chemicals, Reference Standard

Manufacturer or supplier's details : Honeywell Specialty Chemicals Seelze GmbH  
Wunstorfer Straße 40  
Seelze, 30926

For further information, please contact: : 1-800-368-0050  
+1-231-726-3171  
(Monday-Friday, 9:00am-5:00pm)

In case of emergency call : **Medical: 1-800-498-5701 or +1-303-389-1414**  
: **Transportation (CHEMTREC): 1-800-424-9300 or +1-703-527-3887**  
: **In Japan: +(81)-345209637**  
: (24 hours/day, 7 days/week)

**2. HAZARDS IDENTIFICATION****Classification of the substance or mixture**

Not a dangerous substance according to GHS.

**GHS Label elements, including precautionary statements**

Not a dangerous substance according to GHS.

**3. COMPOSITION/INFORMATION ON INGREDIENTS**Formula :  $13\text{CH}_5\text{N}_{15}\text{N}_2\text{O} \cdot \text{HCl}$ 

Chemical nature : Substance

Chemical name	CAS-No.	Concentration
SCA-13C-15N2 hydrochloride	1173020-16-0	<=100.00 %
SCA-13C-15N2 hydrochloride		

**SCA-13C,15N2 HCl,  
reference material****R1650-10MG**

Version 1.0

Note: none

**4. FIRST AID MEASURES**

- |                    |                                                                                                                                                                                 |
|--------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| General advice     | : First aider needs to protect himself.<br>Move out of dangerous area.<br>Take off all contaminated clothing immediately.                                                       |
| Inhalation         | : Remove to fresh air.<br>If respiratory problems develop, obtain medical attention.                                                                                            |
| Skin contact       | : After contact with skin, wash immediately with plenty of water.<br>If skin irritation persists, call a physician.                                                             |
| Eye contact        | : Rinse immediately with plenty of water, also under the eyelids.<br>If eye irritation persists, consult a specialist.                                                          |
| Ingestion          | : Rinse mouth with water.<br>Do not induce vomiting without medical advice.<br>Never give anything by mouth to an unconscious person.<br>If symptoms persist, call a physician. |
| Notes to physician | : Treat symptomatically.                                                                                                                                                        |

**5. FIREFIGHTING MEASURES**

- |                                               |                                                                                                                                                                                   |
|-----------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Suitable extinguishing media                  | : Water spray<br>Foam<br>Carbon dioxide (CO <sub>2</sub> )<br>Dry powder                                                                                                          |
| Unsuitable extinguishing media                | : Do not use a solid water stream as it may scatter and spread fire.                                                                                                              |
| Specific hazards during firefighting          | : In case of fire hazardous decomposition products may be produced such as:<br>carbon oxides (CO, CO <sub>2</sub> ), nitrogen oxides (NO <sub>x</sub> ).<br>Hydrogen chloride gas |
| Special protective equipment for firefighters | : Wear self-contained breathing apparatus and protective suit.                                                                                                                    |
| Further information                           | : Use extinguishing measures that are appropriate to local                                                                                                                        |

circumstances and the surrounding environment.

**6. ACCIDENTAL RELEASE MEASURES**

- |                                                                           |                                                                                                                                                                                                                                                       |
|---------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Personal precautions,<br>protective equipment and<br>emergency procedures | : Evacuate personnel to safe areas.<br>Wear personal protective equipment. Unprotected persons<br>must be kept away.<br>Ensure adequate ventilation.<br>Avoid dust formation.<br>Avoid breathing dust.<br>Avoid contact with skin, eyes and clothing. |
| Environmental precautions                                                 | : Prevent further leakage or spillage if safe to do so.                                                                                                                                                                                               |
| Methods and materials for<br>containment and cleaning up                  | : Use mechanical handling equipment.<br>Sweep up and shovel into suitable containers for disposal.<br>Dispose of in accordance with local regulations.                                                                                                |

**7. HANDLING AND STORAGE****Handling**

- |                                                    |                                                                             |
|----------------------------------------------------|-----------------------------------------------------------------------------|
| Precautions for safe handling                      | : Wear personal protective equipment.<br>Use only in well-ventilated areas. |
| Advice on protection against<br>fire and explosion | : Normal measures for preventive fire protection.                           |

**Storage**

- |                                                                    |                                                                                                        |
|--------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------|
| Conditions for safe storage,<br>including any<br>incompatibilities | : Store in original container.<br>Keep container tightly closed in a dry and well-ventilated<br>place. |
|--------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------|

**8. EXPOSURE CONTROLS/PERSONAL PROTECTION****Components with workplace control parameters**

Contains no substances with occupational exposure limit values.

**Appropriate engineering controls**

Ensure adequate ventilation, especially in confined areas.

**SCA-13C,15N2 HCl,  
reference material****R1650-10MG**

Version 1.0

Issuing date 03/20/2019

Revision Date 05/21/2019

Print Date 08/07/2019

**Individual protection measures, such as personal protective equipment**

Respiratory protection	: In case of insufficient ventilation wear suitable respiratory equipment.
Hand protection	: Protective gloves Gloves must be inspected prior to use. Replace when worn.
Eye protection	: Safety glasses
Skin and body protection	: Wear suitable protective equipment. Wear as appropriate: Protective suit
Hygiene measures	: General industrial hygiene practice.
Protective measures	: Ensure that eyewash stations and safety showers are close to the workstation location. Legal requirements are to be considered in regard of the selection, use and care of personal protective equipment. Avoid breathing dust. Avoid contact with skin, eyes and clothing.

**9. PHYSICAL AND CHEMICAL PROPERTIES**

Physical state	: crystalline
Colour	: white
Odour	: odourless
pH	: Note: no data available
Melting point/range	: 173 - 176 °C : Note: no data available
Flash point	: Note: Not applicable

**SCA-13C,15N2 HCl,  
reference material****R1650-10MG**

Version 1.0

Issuing date 03/20/2019

Revision Date 05/21/2019

Print Date 08/07/2019

Lower explosion limit	: Note: Not applicable
Upper explosion limit	: Note: Not applicable
Vapour pressure	: Note: no data available
Density	: Note: no data available
Water solubility	: ca. 100 g/l
Partition coefficient: n-octanol/water	: Note: no data available
Ignition temperature	: Note: Not applicable
Decomposition temperature	: Note: No decomposition if stored and applied as directed.
Viscosity, dynamic	: Note: no data available
Viscosity, kinematic	: Note: no data available
Molecular weight	: 114.51 g/mol

**10. STABILITY AND REACTIVITY**

Chemical stability	: Stable under recommended storage conditions.
Possibility of hazardous reactions	: No dangerous reaction known under conditions of normal use.
Conditions to avoid	: None known.
Incompatible materials to avoid	: Strong oxidizing agents
Hazardous decomposition	: carbon oxides (CO, CO <sub>2</sub> ) and nitrogen oxides (NO <sub>x</sub> ).
